Alert # XXXXXXXX

Gamenamics Inc. Recalls Air-Powered Hockey Tables Due to Burn Hazard

The following product safety recall was voluntarily conducted by the firm in cooperation with the CPSC. Consumers should stop using the product immediately unless otherwise instructed.

Name of Product: Cordless Air-Powered Hockey Tables with Rechargeable Battery

Units: About 1,100

Distributor: Gamenamics Inc., of Elgin, Ill.

Hazard: The hockey table's wires can overheat or melt, posing a burn hazard to consumers.

Incidents/Injuries: Gamenamics has received eleven reports of burnt or melted wires. No property damage or injuries have been reported.

Description: This recall involves cordless air-powered hockey tables with a rechargeable battery. The table can be folded and moved on attached wheels. The tables are 72-inches long and 38-inches wide and have a predominantly white surface with a bright blue aluminum rail. The playing surface contains the words "Jet Fan Hockey". The recalled items have the numbers SG-504-6c and 73058 printed on the product's carton.

Sold at: Hammacher Schlemmer and Sky Mall catalogs and Web sites from August 2006 through January 2007 and from June 2007 through July 2007 for about \$400.

Manufactured in: China

Remedy: Consumers should stop using the air hockey table until they have installed the free repair kit. If consumers find wire damage, including burnt or melted wires, they should contact Hammacher Schlemmer to return the product for a full refund.

Customer Contact: For additional information, consumers should contact Hammacher Schlemmer by phone at (800) 227-3528 anytime, or e-mail at customerservice@hammacher.com.

The U.S. Consumer Product Safety Commission is charged with protecting the public from unreasonable risks of serious injury or death from more than 15,000 types of consumer products under the agency's jurisdiction. Deaths, injuries and property damage from consumer product incidents cost the nation more than \$700 billion annually. The CPSC is committed to protecting consumers and families from products that pose a fire, electrical, chemical, or mechanical hazard. The CPSC's work to ensure the safety of consumer products - such as toys, cribs, power tools, cigarette lighters, and household chemicals - contributed significantly to the 30 percent decline in the rate of deaths and injuries associated with consumer products over the past 30 years.
